

**OAKLAND UNIFIED
SCHOOL DISTRICT**

Community Schools, Thriving Students

2/26/15

RESOURCES FOR PROPOSAL WRITING TEAMS:

In the spirit of unifying school communities around a common vision and building capacity of school communities to bridge gaps, the District will only be providing financial resources to a **single** Proposal Writing Team from each Intensive Support School undergoing Timeline One. That Proposal Writing Team will be comprised of a majority staff and/or parents of students attending the school.

Once notification of Proposal Writing Teams occurs by March 12, the District will determine if more than one team is similarly comprised for a single school. If that is the case, the District will sponsor an engagement to allow those teams to identify common goals and common interests in order to pursue a single proposal. That unified team will have access to the resources the District has outlined to assist site-based Proposal Writing Teams.

* Only **one proposal** will be accepted from a team composed by a majority staff and/or parents of students enrolled in the school.

Other proposals may be submitted by teams that are not comprised of a majority of staff and/or parents of students in the school, which would be considered to be proposals being submitted from outside the school or by a charter school operator. These teams will not have access to the resources outlined by the District for site-based Proposal Writing Teams.

Allen Smith
Chief of Schools
